

# Freddy Ecovac

Leading the way in coolant recycling 

The Freddy Ecovac is unique in the Freddy coolant recycling family as it is the only vacuum to vacuum out and recycle the coolant continuously, using an independent pump for return.

The Freddy Ecovac is designed to vacuum out coolant from machine tool sumps, machine beds, drip trays, conveyors and even the shop floor with the dedicated floor tool and recycle it for re-use.

- The most widely used and well-established coolant vacuum range in the world
- Recycles coolant and extends coolant life
- Enhances coolant performance and production quality
- Significantly reduces coolant usage
- Improves and extends tool life
- Extensively cuts waste disposal costs
- Removes contaminants that cause bacterial growth
- Removes contaminants that cause micro-abrasions which can lead to dermatitis
- Complete with 24 months warranty
